Miss George Thompson of Foughkeeps, who has been the guest of Mr. and Mrs. James Stoddard of Ledyard, is today for a visit with friends in Thompsonville.

CITY MEETING IS EXPECTED NEXT WEEK.

Mayor Thayer States That He is Promised Necessary Information This Week and Will at Once Call the Meeting.

On Monday evening Mayor Thayer was asked by the city meeting, over the calling of a city meeting, he stated that he had been called upon by a number of citizens in this regard, and that he felt as deeply interested in the matter as they do, but he feels that it is unwise to call a city meeting at this time, as the necessary data upon which the recommendation is based can be at hand to explain to the city.

The mayor stated that he had been promised the necessary data this week in regard to the proposition which was made at the city meeting, and as soon as that is received he will issue the call, and he expects that there will be a city meeting called in regard to the matter next week.

SHORT HEARING ON RIPLEY PLACE SEWER.

Only Two Property Owners Appear to Be Heard—Assessment Will Be 91 Cents a Running Foot.

There was a hearing in the council chamber this morning for the hearing of the assessment on the Ripley place sewer. Only two property owners appeared to be heard. The assessment will be 91 cents a running foot.

At Mohegan Lake the water is within two feet of full pond, though this does not mean that the water is running over the dam, as full pond is several inches below that point. The water in the middle of the reservoir was being taken from Mohegan lake.

JORWICH BULLETIN, TUESDAY, NOVEMBER 22, 1910

PLEAS OF THE WATER IS ASSURED

Pipes of the System Will Be Kept Filled Though It May Not Be Fit For Drinking—River Water Will Be Used, If Needed, as a Last Resort—Fairview Now Aided by Mohegan Lake—Strainer Went Out of Water Monday Morning.

Everyone whose faucet when opened Monday morning did not respond with a gushing stream thought the reservoir had run dry and that the city was without water. For a long time efforts have been made to have the people realize that the situation was a serious one and that all the water which could be saved should be. This has resulted in the saving of many days' supply at the Fairview reservoir, while at Mohegan lake it is estimated that the supply will last from thirty to fifty days.

The turning of the water from Mohegan lake into the water mains has been delayed as long as possible and pressure went out of the city, when there is always an unusual demand for water. During the night, the water level in the Fairview got out of water so that the pressure drop and no water went through the pipes for a while, which accounts for the necessity of the use of the large fire pumps at the Falls mill. At the Fairview, the water level was so low that the pumps were unable to force through the mains water sufficient to supply the city with the river water, at the present emergency.

This service would, of course, be paid for, and would provide the water for the shut off of the city. It is expected to drink it, as it is open to pollution from various sources. This would be done only as a last resort, all other means failing.

Rain Is Expected.

Every day without rain means one day nearer rain, but how soon that rain will come is not known. When the reservoir was down at its lowest point five years ago it reached the low level of 255 inches below high water mark on November 28. It is now November 22 and the pond was down 230 inches on Monday. From this it might be deduced that the lowest point must be reached soon and rain in abundance looked for. This is the prayer of everyone, and a dry day will be a permanent break can be expected soon. It was reported early this morning that it was raining in New Haven.

On the morning of the 22nd, a fire was reported to the department and prompt attention is given in each case. The fire department is being kept on the alert for any emergency that might arise. Alderman Ely, chairman of the fire department, said that the fire department is being kept on the alert for any emergency that might arise.

being put to general use and people are boiling all the city water which is being used to drink.

HEARING ON ESTABLISHING POWER LINE AT PLAINFIELD

Demurrer Argued Before Judge Greene in the Law Library, Occupying All the Morning.

On Monday morning the continued hearing before Judge Greene in the case of William P. Babcock and others vs. the Nashawauk Power Co. in regard to the construction of a high tension power line in front of their property in Plainfield, was held. The plaintiff made application for the appointment of a committee of three, to which a demurrer was made on the grounds that the reasons were insufficient. This demurrer was argued and the entire morning was occupied by it. Attorney Babcock and Bowring appearing for the plaintiff, while Mayor Thayer appeared for the defendant company.

The complainant claims that it is acting under its charter and therefore there is no grounds for damages. The plaintiff claims that it comes under the statute regardless of such matters and claims that a committee of three should be named to assess the damages.

The matter went over until a week from Saturday for the filing of briefs.

MAJOR PIORKOWSKI TELLS OF FRANCO-PRUSSIAN WAR.

Heard With Much Interest by Pupils at Miss Butts' School.

Major Piorkowski of New York gave a talk to Miss Butts' school on Monday afternoon which was much appreciated by the young ladies. He gave them an interesting account of the Franco-Prussian war, in which he was an officer in the German army. Next year, he held the fort at Metz.

The meeting was called. The new Australian ballot was used and those who were voted upon were those placed in nomination at the national convention which was held in Des Moines, Ia., the first week in September. This election was conducted Monday evening in Canada, all over the United States and in all the United States possessions excepting the Philippines.

Incidents in Society

Mrs. Thomas Harland has returned to her home on Sentry Hill after a visit in New York city.

The Harmony Whist club met Monday afternoon with Mrs. Walter Porter at her home on East Town street. Two tables of whist were played.
